

Service Equipment

Key Cutting Machine

Absolutely the best piece of equipment ever designed for originating small format I/Core Keys. The Key Cutting Machine is fast, accurate & durable.

The Key Cutting Machine features interchangeable vises allowing you to quickly switch punching capability from SFIC to other specialty keyways. You'll love the way the side mounted depth knob and automatic key advance speed up the cutting process without miscuts. Manufactured with cast iron and brass. The Key Cutting Machine is built to last.

- for A2 System** #GP201-A2
- for A3 System** #GP201-A3
- for A4 System** #GP201-A4
- Premium Vice** #GPBP-024

Duo Block

This tool is ideal for capping cores.

Duo Block for I/Core .140 & .150
.140 or .150 spacing with a single, reversible capping block. Made of heavy duty steel. #TB4

Replacement Punch for Duo Block #TB4PP

Ejector Pin for I/Core

Originally designed for use with Decoding Block, this single ejector punch is suitable for most any I/Core. #TBIP

Multi-Punch Ejector Pin

A great time saver. Eject cores with this 4-pronged punch. Suitable for manual use. #TBMP

Stamping Plate

Stamp keys and I/Cores with stamping fixture. Manufactured of Delrin so keys won't jump around while stamping. #35

Key Decoder for I/Core

Quickly decode keys for three systems: A2, A3, and A4, with one handy tool. #4

Capping Press Plus

Affordable machine caps & dumps!

This equipment costs about half as much as other, less versatile capping presses. A MUST for high volume operations. #CAP-1
